

BNL Hosts VIPs at RHIC, ITD, PET, NSLS

May 31, 2002

On May 31, Undersecretary of Energy Robert Card and Director of DOE's Office of Science Raymond Orbach, with DOE's Craig Reed and Jeffrey Salmon, visited BNL. After a tour of the STAR detector, the visitors saw BNL's supercomputing facilities in the Information Technology Division, learned about some environmental programs, then visited the Positron Emission Tomography Facility before stopping at the National Synchrotron Light Source. Here, U.S. Representative Felix Grucci also joined in welcoming the group and later hearing a presentation on current and future research.
